Hotel Terme San Lorenzo is a hotel located in Abano Terme with its own thermal spa facility. Its strategic location allows guests to reach the city center with just a few minutes' walk, while also enjoying the nearby Natural Park of the Euganean Hills.

The thermal treatment department is affiliated with the National Health Service and uses **Fango D.O.C.**, a unique local natural product whose anti-inflammatory effectiveness is certified and protected by a European patent.

Since 1950, the Toson family has managed Hotel Terme San Lorenzo, constantly striving to improve the services offered to its guests. For over seventy years, they have welcomed guests with professionalism, offering experiences of healing, wellness, and regeneration.
We want you to feel like part of the Family, offering you a comfortable home you'll always be happy to return to.

Anti-inflammatory active ingredients contained in the Euganean thermal muds.

European Patent No. 1571203 protects and guarantees the presence of numerous active components in the thermal mud, naturally produced during the maturation process when properly managed. Scientific research conducted by the Pietro d'Abano Thermal Studies Centre, holder of the patent, has identified these compounds and demonstrated their effectiveness in treating chronic and degenerative inflammatory conditions, particularly those of osteoarticular origin.
